1. Icontrol’s Identification of Accused Products.

Icontrol identifies the following as infringing the patents identified in § 2 below (hereafter, the “Accused Products”):

Ryan:

We encourage iControl to file an Amended Complaint to address the issues raised in Zonoff's pending motion. Until we see what any such Amended Complaint looks like, however, we will be unable to assess whether a Rule 26(f) conference would be practicable yet. Zonoff does commit that if iControl chooses to file an Amended Complaint, Zonoff will reassess its position and get back to you promptly.

Tom

Subject: Re: Icontrol Litigation - Request for Rule 26(f) Conference

Tom,

Thank you for your email. In response to your question, Icontrol does not currently intend file additional actions. However, Icontrol does maintains its right to do so.

Icontrol believes that the arguments raised in Defendants¹ respective Motions to Dismiss lack merit. Nevertheless, in an effort to avoid unnecessary motion practice, Icontrol is considering filing an amended complaint with additional factual allegations. If Icontrol agrees to file an amended complaint by November 21, would defendants agree to participate in a Rule 26(f) conference during the week of Nov. 24 or the week after?

Ryan:

Although we believe that a joint Rule 26(f) conference in both the Zonoff and SecureNet cases makes sense because there are four patents in common, please confirm that iControl does not intend to soon file other patent infringement cases in the District of Delaware involving any of the patents-in-issue in these two cases.

In view of Zonoff's pending motion to dismiss and for a more definite statement of the complaint, we believe that it is premature to be scheduling a Rule 26(f) conference before an answer and any counterclaims have been filed. Does iControl intend to file an Amended Complaint pursuant to Rule 15(a)(1)(B) to address the issues raised by Zonoff's motion? If so, once we review any such Amended Complaint, we would be happy to revisit the question of the timing of a Rule 26(f) conference.

Best regards,

Tom Kenworthy
